**About TravelSky Technology Limited**

TravelSky Technology Limited is a leading provider of information technology solutions for China's aviation and travel industry, standing at a core tache along the value chain of China's aviation and travel service distribution. It has been devoted to serving the needs of all industry participants ranging from commercial airlines, airports, travel products and services providers, travel agencies, travel service distributors, corporate clients, travelers and cargo shippers, as well as major international organisations such as International Air Transport Association (IATA) and government bodies, with the scope of services covering the provision of critical information systems on flight control, air ticket distribution, check-in, boarding and load planning, accounting, settlement and clearing, etc. With more than three decades of tenacious development, TravelSky has built up a complete industry chain for aviation and travel information technology services, established a relatively comprehensive, competitively priced product line of aviation and travel information technology services with robust functionality.
